

## OUR PROMISE

The VMR Institute in Huntington Beach is a leading facility for the diagnosis and treatment of disorders of vitreous, macula, and retina. In addition to providing outstanding care for our patients with macular degeneration, diabetic retinopathy, retinal detachments, macular pucker and holes, retinal vein occlusions, and floaters, our vitreo-retinal specialists Dr. Sebag, and Dr. Chong also lend their expertise and knowledge to medical professionals all over the country and throughout the world.

Establishing and maintaining long-term relationships with our patients is of the utmost importance. We achieve this by treating you with great care and compassion. We do our best to ensure you receive the best possible treatment.

We understand what vision loss means to our patients. Our approach is to treat the person, not just the eye. We do this by providing superior quality and unparalleled patient service with compassion and uncompromised professionalism.

## OUR SPECIALTIES

Macular Holes      Macular Pucker  
 Diabetic Retinopathy      Retinal Detachments  
 Macular Degeneration      Retinal Vein Occlusions

### AGE-RELATED MACULAR DEGENERATION

- AMD is the leading cause of blindness in elderly
- Sudden onset of distortions may indicate the transition from dry to wet AMD
- Drug therapy can prevent progressive vision loss in almost all cases, and can improve vision in nearly half of cases

### DIABETIC RETINOPATHY

- The leading cause of blindness in Americans 20 – 74 years of age
- Can develop unnoticed and progress for years before vision is impacted, so early detection is very important
- Special testing at the VMR Institute for Vitreous Macula Retina can achieve early detection

### FLOATERS

- Floaters are perceived by many patients as a serious health problem
- The ability to read and drive can sometimes be impacted
- A limited vitrectomy is the only proven way to cure floaters with 99% safety

## OUR DOCTORS

Educated at Columbia & Harvard, Dr. Sebag is considered the world's leading authority on vitreous. In private practice since 1986, he has authored three books, 69 articles, 49 chapters and 55 other publications on diseases, drug therapy, and surgery of the vitreous, macula, and retina (VMR). Dr. Sebag's hobbies include traveling, boating, and golfing.

Dr. Chong was born and raised in Los Angeles, California. He graduated with a Bachelors in

Biology from USC, where he was the Valedictorian of his class. Dr. Chong received his medical degree from Harvard Medical School in 1981. He has authored over 65 peer reviewed publications, 11 book chapters, and 2 books. Currently Dr. Chong is in private practice in Huntington Beach, California.

Our staff is committed to excellence. We are aware of your needs and are dedicated to help improve your vision and make you happy.
